Breadloaf

When taking orders for breadloaf shaped signs remember that the filigris design will use up one complete line space.

Customers can specify hole placement if needed. If a customer intends to hang a sign from a chain or other, please note that we will not guarantee the durability of the sign. Friction from wind will eventually wear away the holes and eventually break the slate. If someone still wishes to hang a slate sign please advise them to put some sort of rubber or non-corrosive metal filler in the holes prior to hanging it.
